MISSION STATEMENT

The goal of AIChE social events is to connect students in the UCLA Chemical and Biomolecular Engineering department and to create a lasting camaraderie. The social events allow people of different backgrounds and interests to meet and enjoy an activity almost as exhilarating as statistical thermodynamics. We plan to maximize student interest in AIChE by creating fun and irresistible social events. As a sponsor, the company will be able to become a part of the UCLA Chemical and Biomolecular Engineering Department by participating in the events and experiencing them with us.

INTRODUCTION

In the past year, we have successfully hosted events such as the annual student and faculty AIChE BBQ, an AIChE bowling event, etc. Our previous social chairs have done such a great job that we received a lot of positive feedback about our events from both AIChE members and the faculty. This year, we will continue and improve on some traditional AIChE social events while also introducing a few new socials. So far, we have planned approximately 6 social events throughout the year for members of AIChE at UCLA.

ACTIVITIES AND COST ESTIMATE

Iron Chef: Nitrogen Ice Cream Competition

This event primarily serves as an ice-breaker. The nature of the activity includes free food (and ice cream at that) and free prizes to lure new members. It's planned in the beginning of the year so that new students may have a social, comfortable environment to meet the more tenured members of AIChE.
